Jake Demian

Software Engineer, Computer Engineer,
Web Developer, Game Designer

Cleveland, OH

(216) 217-2177
jakedemian@gmail.com

EXPERIENCE

Senior Software Engineer, (remote) — *Synapse Studios*

MAR 2021 - PRESENT

Synapse is a software development agency that provides skilled development teams to create software for businesses. I work with in-house engineers on web and mobile app development for companies that have a need for software. I use JS and TypeScript, React, Git, PostgreSQL, and Docker.

Software Developer, Cleveland OH — *Health Street*

FEB 2019 - MAR 2021

Feature development and maintenance of health-street.net using React, Node.js, JavaScript, PHP, WordPress, AWS, and HTML/CSS.

EDUCATION

The University of Akron, Akron OH — *Bachelor of Science in Computer Engineering, minors in Mathematics and Computer Science*

Fall 2010 - Spring 2015

Studied Computer Engineering from 2010-2015 in a 5 year co-op program. I did 3 co-op semesters, two at STERIS and one at Nanotronics Imaging.

PERSONAL PROJECTS

Personal Website — *jakedemian.dev*
Made with React & TypeScript, hosted by Vercel

### Project Hierarchy Explorer — *rb.gy/dhdq1*
VS Code extension that outputs your project structure as text.

Intro Boutique — *introboutique.com*
I assist my wife and her co-workers in maintaining their Shopify site.

Sapphire Lake — *prime-ape-games.itch.io/sapphire-lake*
Relaxing fishing sim I made in a few weekends.

GitHub — *github.com/jakedemian*

LANGUAGES

TypeScript
Bash
PHP
C#

FRAMEWORKS

React
React Native
Expo
Nest.js
Next.js

TOOLS

Git
GitHub
Github Actions
Node.js
Vercel
VS Code
Jetbrains
Redis
PostgreSQL
AWS
Docker
GCP / Firebase

STRENGTHS

Working Remotely
Agile/Scrum
CI/CD
Software Architecture
Automated Testing
Communication
Problem Solving

INTERESTS

Video Games
Programming
Game Dev
3D Printing
Custom Built PCs
Sports
Running
Astronomy
Watchmaking
